Doomscroll

Dialog Map — Lab 2 (Refined)

Version 1.1
Prepared by: Project Team -- SC2006
Date: 20 September 2026

UI Flow

The diagram below shows the real UI flow: the Tk launcher's Main and Settings pages, the OS-level windows each scripts/*.py subprocess opens (Calibration, Recording, Quick Calibrate, and the live Running/Autoscroll window), and every dialog between them, including the Calibration Checkpoint (Yes/No/Cancel) that follows every calibration run.
